Chairman's Statement

Dear Shareholders,

On behalf of the Board, I am pleased to present the annual report of the Group for the Reporting Period.

BUSINESS REVIEW AND OUTLOOK

Overview

Conant is a leading resin spectacle lens product and one-stop service provider in the world. With our three production bases across the world, namely the Shanghai Production Base and Jiangsu Production Base in the PRC and the Sabae Production Base in Japan, we are capable of providing our customers with standardized resin spectacle lens of various specifications, as well as customized lens with personalized, differentiated and high-end features. Our customer base includes not only internationally renowned ophthalmic optic companies, but also a large range of retailers with world-wide coverage. Leveraging on our extensive experience and our advanced technique in the spectacle lens industry, we have been providing products and services to over 90 countries across the world, including but not limited to the PRC, the United States, Japan, India, Australia, Thailand, Germany and Brazil.

In the XR business, the company's projects with global and domestic technology and consumer electronics companies have been advancing steadily. Notably, some key projects with domestic clients have successfully entered mass production. While delivering mass production orders with high standards, the company has also been invited by clients to further engage in deep collaboration to optimize and enhance assembly processes within the supply chain, thereby enhancing the delivery capabilities of clients' smart glasses products.

Additionally, in the second half of 2025, the company constructed and put into operation a brand-new Neo Vision XR lens production line and cleanroom facility. This milestone marks a significant upgrade in the company's XR business capabilities, including customized R&D and validation, mass production, and product delivery. It lays a solid foundation for the mass production of key overseas projects in the future.

Building on the foundation made in the financial year of 2024, our results for the financial year of 2025 experienced further growth. Our revenue increased by 6.1% from RMB2,060.8 million for the year ended 31 December 2024 to RMB2,186.0 million for the year ended 31 December 2025, and our net profit increased by 30.2% from RMB428.3 million for the year ended 31 December 2024 to RMB557.7 million for the year ended 31 December 2025, primarily due to the increase in our sales volume from 178.0 million pieces in 2024 to 185.0 million pieces in 2025. Meanwhile, we had further optimized our product structure, channel structure and business model. In 2025, the total annual production volume of our three production bases reached 206.5 million pieces, representing a 1.0% year-on-year decline.

Outlook for 2026

Going forward, we will continue to strengthen our market position and increase our market share by pursuing the following strategies:

Further enhancing our production capacity and continuous upgrading of our automation level. We plan to ramp up production of the new customization line in Japan that was put into operation in November last year, and commence production of Thailand production base in 2026 in an orderly and rhythmic manner.

Over the past years, the Company has been gradually commencing production capacity expansion and automation upgrade. As of the end of 2025, we have successively invested in automating different production processes of customization lines to reduce manpower, reduce wastage and enhance production efficiency. In 2026, we will continue to drive capacity upgrades and enhance automation level to further enhance our competitive advantage.

Chairman's Statement

Strengthening product development capabilities. We believe that the research and development capability is crucial for the Company to further enhance its competitiveness in the domestic and international markets.

In addition, the Company has also been actively building national-level R&D centres, including the new XR (Extended Reality) R&D centre. The Company will continue to invest in R&D, strengthen the project management and intellectual property management, and focus on the commercialization of R&D capabilities. Moreover, the Company has been researching and developing innovative products with different refraction index and different functions, and actively enhancing and upgrading the existing product portfolio.

After three years of development, the Company's XR business has gained deep recognition from numerous domestic and international clients for its leading advantages, including fullstack R&D capabilities, product performance and reliability, large-scale production and delivery, and quality stability. To date, the Company has engaged in collaborations with approximately 20 leading domestic and international smart glasses developers, which are globally renowned technology and consumer electronics companies, as well as top domestic smart glasses startups.

In 2026, the Company will endeavor to ensure the smooth mass production of key projects. The Company will continue to develop customization capability and provide diverse eyepiece solutions for customers. The Company expects the XR business to begin making notable revenue and profit contributions in 2026.

APPRECIATION

The Board would like to express its sincere gratitude to the Shareholders, suppliers and customers of the Company for their continued support and trust. The Board would also like to thank all the employees and management team for executing the Group's strategies with professionalism, integrity and dedication.

Management Discussion and Analysis

REVENUE

We generate revenue primarily through the sales of our resin spectacle lenses. Our revenue increased by 6.1% from RMB2,060.8 million in 2024 to RMB2,186.0 million in 2025.

We principally sell our products to customers in the PRC, other Asian countries such as India and Japan, the United States and Europe such as the Netherlands, Germany and Italy. As compared to 2024, our sales in most major geographic locations across the world increased, of which, the sales in Mainland China increased significantly to 14.6%, primarily attributable to an increase in the number of orders.

We recorded an increase in our revenue in the multifunctional lens segment and standardised lens segment. Revenue from multifunctional lens and standardised lens increased by 1.7% and 12.6% in 2025 as compared to 2024, respectively. Such increases were mainly due to more orders from customers. Revenue in the customised lens segment decreased by 0.6% compared to 2024, which was mainly due to the impact of U.S. tariffs.

The Company's own brand business recorded a revenue of RMB1,423 million in 2025, representing a year-on-year growth of 11.6%, primarily driven by further increase in the Company's market share; the ODM business recorded a revenue of RMB763 million in 2025, representing a year-on-year decrease of 2.9%, primarily due to the negative impact of U.S. tariffs.

COST OF SALES

Our cost of sales increased by 0.2% from RMB1,265.7 million in 2024 to RMB1,268.5 million in 2025.

Management Discussion and Analysis

GROSS PROFIT AND GROSS PROFIT MARGIN

Our gross profit increased by 15.4% from RMB795.1 million in 2024 to RMB917.5 million in 2025. Our gross profit margin increased from 38.6% in 2024 to 42.0% in 2025. Primarily due to (i) upgrade of product mix; (ii) faster revenue growth of own brand business than ODM business; and gross margin expansion in both businesses; (iii) enhanced automation level and economies of scale.

The gross profit margin for our own brand business expanded from 42.7% in 2024 to 44.7% in 2025, while the gross profit margin for our ODM business rose from 31.9% in 2024 to 36.9% in 2025. Both were driven by an increase in the share of revenue from the Chinese market across these two business models.

OTHER INCOME AND GAINS AND LOSSES

Our other income and gains and losses decreased by 23.7% from RMB57.8 million in 2024 to RMB44.1 million in 2025, primarily due to a decrease in the receipt of government grants of RMB9.1 million and the depreciation of U.S. dollar against Renminbi.

SELLING AND DISTRIBUTION EXPENSES

Our selling and distribution expenses decreased by 3.9% from RMB129.8 million in 2024 to RMB124.8 million in 2025, which was primarily due to the optimization of marketing channels and enhancement in marketing efficiency.

ADMINISTRATIVE EXPENSES

Our administrative expenses increased by 8.8% from RMB193.9 million in 2024 to RMB211.1 million in 2025, primarily attributable to an increase in research and development expenses of RMB9.1 million and an increase in expenses for the employees' share incentive scheme.

OTHER EXPENSES

Our other expenses decreased by 0.1% from RMB1.7 million in 2024 to RMB1.6 million in 2025, primarily attributable to the decrease in rental expenses.

IMPAIRMENT LOSS OF FINANCIAL ASSETS

Impairment gains under expected credit loss model increased by RMB39.7 million to RMB22.4 million in 2025 (2024: impairment losses of RMB17.3 million). The increase in impairment gains on financial assets in 2025 was mainly due to the recovery of trade receivables for which the provision for impairment losses had been fully made in prior periods, and an improvement in the credit status of debtors of trade receivables during the current period.

FINANCE COSTS

Our finance costs decreased by 39.7% from RMB10.2 million in 2024 to RMB6.1 million in 2025, primarily due to a decrease in interest on bank loans of RMB4.3 million as a result of the optimization of financing structure, decrease in financing costs and repayment of bank loans.

INCOME TAX EXPENSE

Our income tax expense increased by 16.4% from RMB69.1 million in 2024 to RMB80.4 million in 2025, primarily due to an increase in profit before tax which resulted in an increase in tax payables.

PROFIT FOR THE YEAR

Our net profit for the year increased by 30.2% from RMB428.3 million for the year ended 31 December 2024 to RMB557.7 million for the year ended 31 December 2025.

Management Discussion and Analysis

CAPITAL STRUCTURE

Our total assets increased by 48.4% from RMB2,388.8 million as of 31 December 2024 to RMB3,545.0 million as of 31 December 2025. Our total liabilities decreased by 0.2% from RMB803.2 million as of 31 December 2024 to RMB801.8 million as of 31 December 2025. Liabilities-to-assets ratio decreased from 33.6% as of 31 December 2024 to 22.6% as of 31 December 2025.

The current ratio, being current assets divided by current liabilities as of the respective date, increased from 2.2 times as of 31 December 2024 to 3.6 times as of 31 December 2025.

LIQUIDITY AND FINANCIAL RESOURCES

Our primary uses of cash are to satisfy our working capital needs and our capital expenditure needs. For the year ended 31 December 2025, we financed our operations primarily through internal resources, bank and other borrowings, net proceeds from the global offering (the “**Global Offering**”) of its H shares in connection with the listing of the H shares on the Main Board of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) on 16 December 2021 and the share placement to Goertek (Hong Kong) Co., Limited on 6 January 2025. Our cash and cash equivalents increased by 26.2% from RMB499.1 million as of 31 December 2024 to RMB630.0 million as of 31 December 2025, primarily attributable to the receipt of the additional funds raised the share placement to Goertek (Hong Kong) Co., Limited.

Our gearing ratio, which is calculated based on the total borrowings divided by the total equity and multiplied by 100%, decreased from 18.3% as of 31 December 2024 to 9.5% as of 31 December 2025, primarily due to a decrease in interest-bearing bank and other borrowings of RMB28.0 million due to repayment of bank loans, as well as the accumulation and expansion of net assets through the profits realization and equity issuance.

As of 31 December 2025, the Group had interest-bearing bank and other borrowings of RMB261.6 million (as of 31 December 2024: RMB289.6 million), representing 32.6% (as of 31 December 2024: 36.1%) of its total liabilities as of the same date. Of all the borrowings of the Group as of 31 December 2025, RMB261.6 million were repayable within one year and RMBnil million was repayable beyond one year. There was no borrowings of RMB that was beyond one year. As of 31 December 2025, all of the Group’s bank borrowings were borrowings with fixed interest rates.

Except for the bank loans amounting to RMB4.5 million as of 31 December 2025 (as of 31 December 2024: RMB4.6 million), which were denominated in Japanese Yen, all the Group's bank borrowings as of 31 December 2025 were denominated in Renminbi. The Group mainly uses Renminbi, Japanese Yen, U.S. dollar and Hong Kong dollar to make borrowings and loans and to hold cash and cash equivalents.

As of 31 December 2025, banking credit facilities of the Group totaling RMB510.0 million (as of 31 December 2024: RMB407.0 million) were utilised to the extent of RMB261.6 million (as of 31 December 2024: RMB289.6 million).

CAPITAL EXPENDITURES

Our capital expenditure increased by 29.6% from RMB224.8 million in 2024 to RMB291.4 million in 2025. Our capital expenditure was used primarily for the purchase of high-end equipment and equipment that was related to XR business, land acquisition in Thailand and other long term assets. We financed our capital expenditure primarily through our cash flow generated from operating activities and proceeds from the placing of new shares to Goertek (Hong Kong) Co., Limited.

CONTINGENT LIABILITIES

As of 31 December 2025, the Group did not have any material contingent liabilities, guarantees or any litigations or claims of material importance, pending or threatened against any member of our Group that was likely to have a material and adverse effect on our business, financial condition or results of operations.

PLEDGE OF ASSETS

As of 31 December 2025, the Group's property, plant and equipment with carrying values of RMB124.4 million (as of 31 December 2024: RMB133.5 million), investment properties with carrying values of RMB12.9 million (as of 31 December 2024: RMB14.2 million) and leasehold land with carrying values of RMB5.2 million (as of 31 December 2024: RMB5.3 million) were pledged to secure general banking facilities granted to the Group.

Management Discussion and Analysis

FOREIGN EXCHANGE RISK AND HEDGING

The Group has a significant amount of overseas sales from overseas customers and purchases of raw materials from overseas suppliers. Most of the Group's overseas sales are denominated in U.S. dollar. The Group's sales or purchases may also be denominated in U.S. dollar, Japanese Yen, Renminbi or Euro, which are the currencies other than local currency adopted by the relevant subsidiaries. The Group is exposed to foreign exchange risks. Currently, the Group has already implemented swap, optional forward and other exchange rate management instruments, closely monitored fluctuations in the foreign exchange market, and took measures as necessary to ensure that foreign exchange risks remain within manageable limits.

SIGNIFICANT INVESTMENT

In 2025, the Group had significant investment which exceeded 5% but was lower than 25% of the Group's total assets. As of 31 December 2025, the Group held financial assets at FVTPL of RMB788.5 million (as of 31 December 2024: RMB149.5 million). Such financial assets included investments in various fund of wealth management products which were managed or issued by several major and reputable financial institution or commercial banks in the PRC. The value of such investments from any single financial institution or bank exceeded 5% but was lower than 25% of the Group's total assets as of 31 December 2025.

MATERIAL ACQUISITIONS AND FUTURE PLANS FOR MAJOR INVESTMENT

According to the Company's investment plan for Thailand, as at 31 December 2025, the Company has invested and paid in the cumulative amount of RMB92,271,430 for the acquisition of land to the subsidiary in Thailand. The Company plans to use the land for construction of plant and supporting facilities (including warehouse and logistics), mainly for automated production lines, and semifinished product modules. We will gradually implement this investment project in accordance with the Company's strategic plans. In addition, the Company recently obtained a BOI investment certificate in Thailand. It is expected that the relevant business operations in Thailand will be eligible for a six-year income tax exemption starting from the first revenue generated, as well as other BOI investment incentives. Also, as stated in the voluntary announcement published by the Company on 5 May 2025, in order to deepen its global strategic deployment and enhance its production capacity of customised lenses, the Company has completed the investment in the construction of an automated RX resin lens production line through its indirect wholly-owned subsidiary in Japan, Asahi Lite Optical Co., Ltd. ("**Asahi Optical**"), with a focus on the production and sales of high-end customised lenses. The project is planned with a total investment of approximately US\$4 million, which will be financed by the Group's internal funds.

SIGNIFICANT EVENTS AFTER THE REPORTING PERIOD

On 19 January 2026, Asahi Lite (a direct wholly-owned subsidiary of the Group) and Goertek Optical entered into a JV agreement for the establishment of a JV entity, of which Asahi Lite contributed US\$0.3 million, representing 30% of the registered capital of the JV entity. The JV entity will be established for research and development, production, and sales of prescription lenses for smart glasses, waveguide (WG) Eyepieces (including WG components with and without myopia correction), and corresponding optoelectronic components of eyepieces with electrochromic and eyetracking functions applied in the AI/AR/VR/MR glasses field. Details of which are set out in the announcement of the Company published on 19 January 2026.

On 3 February 2026, an aggregate of 27,000,000 placing shares were allotted and issued to the independent places through the placing agent at the placing price of HK\$52.00 per placing share. Details of which are set out in the announcement of the Company published on 3 February 2026.

Additionally, after the results period, in order to strengthen the Company's strategic positioning in smart glasses sector, enhance synergies across the industry chain, and deepen cooperation with leading companies in the industry, the Company invested RMB180 million to participate in the latest round of financing for Lingban Technology (Hangzhou) Co., Ltd. (hereinafter referred to as "**Lingban Technology**") to subscribe for its ordinary shares. This investment will represent no more than 5% of Lingban Technology's total equity upon completion of this financing round. The funds for this investment will be sourced from the Company's internal resources. As a unicorn company in China's human-computer interaction and AR sectors, Lingban Technology's Rokid brand of smart glasses is deeply rooted in the industry for ten years and maintains a strong position at the forefront of the domestic consumer-grade smart glasses market. The Company has already engaged in a business cooperation with Lingban Technology. Leveraging the Group's global production capacity and rapid delivery capabilities, the collaboration between the two parties is expected to deepen further.

In addition, subsequent to 31 December 2025, the Company entered a share transfer agreement to acquire the remaining 51% equity interests in Jiangsu Blue Optics Lens Co., Ltd. Management Discussion and Analysis

Employees

As of 31 December 2025, we had a total of 2,890 employees who were based in PRC, Japan and United States.

The ability to recruit and retain experienced and skilled labour is crucial to our business development and growth. The remuneration payable to our employees generally includes basic salaries and discretionary bonuses. The basic salaries of our employees are generally determined by the employee's rank, position, qualification, experience and performance. The discretionary bonuses are paid on an annual basis, depending on the performance of the individual staff. In order to incentivise, attract and retain our employees, we assess the remuneration package offered to our employees on an annual basis to determine whether any adjustment to the basic salaries and bonus should be made. For the year ended 31 December 2025, our employee benefit expenses including Director's and chief executive's remuneration, wages, salaries and other allowances, and pension scheme contributions and social welfare and share-based payment expenses amounted to approximately RMB434.1 million (for the year ended 31 December 2024: RMB430.8 million).

The Group adopted the restricted share unit scheme on 18 December 2023 (the "**2023 Share Award Scheme**") and the second restricted share unit scheme on 20 January 2025 (the "**2025 Share Award Scheme**", together with the 2023 Share Award Scheme, collectively the "**Employee Share Award Scheme**") respectively, which will provide incentive to retain and encourage the selected participants for the continual operation and development of the Group. Details of the 2023 Share Award Scheme and the 2025 Share Award Scheme have been disclosed in the announcements of the Company dated 27 November 2023, 12 December 2024, 7 January 2025, 3 April 2025 and 6 April 2025, and the circulars dated 1 December 2023 and 20 December 2024 respectively. From the beginning of 2025 to the latest practicable date, the trustee has repurchased an aggregate of 2,189,000 H Shares from the open market of the Stock Exchange and held such shares on trust platforms as incentives under the Employee Share Award Scheme. The cumulative amount of H Shares repurchased from the open market since the commencement date of the Employee Share Award Scheme is 14,987,000 shares. As of 31 December 2025, the number of H shares purchased on the trust platforms but not yet granted to employees was 12,356,160 H shares.

Additionally, for particulars of major financial risks the Company is exposed to and the management goal and policies against such risks undertaken by the Company, please refer to Note 39 to the financial statements. These discussions form part of this Report of Directors.

INFORMATION ABOUT SUBSIDIARIES

Details of the information about the subsidiaries of the Company are set out in Note 42 to the financial statements.

DIVIDENDS

The results as at 31 December 2025 of the Company are set out in the consolidated financial statements of this annual report.

The Board recommends the distribution of a final dividend (the “**Proposed Final Dividend**”) of RMB0.20 (tax inclusive) per share during the Reporting Period, with a total amount of RMB101,385,000, which is subject to the approval by the Shareholders at the AGM. If such Proposed Final Dividend is approved by the Shareholders, the Proposed Final Dividend will be paid no later than Tuesday, 11 August 2026 to the Shareholders whose names are listed on the register of Shareholders on Wednesday, 24 June 2026.

The Company will not be liable for any claim or dispute over the withholding mechanism arising from any delay in, or inaccurate determination of the status of the Shareholders.

The Board is not aware of any Shareholders who have waived or agreed to waive any dividend.

DIVIDEND POLICY

The Company currently does not have a pre-determined dividend payout ratio. Pursuant to the Articles of Association, the Board may declare dividends in the future after taking into account its results of operations, financial condition, cash requirements and availability and other factors as it may deem relevant at such time. The Group’s historical declarations of dividends may not reflect its future declarations of dividends.

Since the Company and a majority of its major subsidiaries were established in the PRC, the future dividend payments of the Company will depend largely upon the availability of dividends received from its subsidiaries in the PRC, which were subject to the PRC laws. Under the PRC laws, dividends can only be paid out of distributable profit of a PRC company. PRC laws require that dividends be paid only out of the profit for the year calculated according to the PRC GAAP, which differ in certain aspects from the generally accepted accounting principles in other jurisdictions, including the IFRSs. PRC laws also require the Company’s subsidiaries to set aside at least 10% of its net profit as statutory reserves, which are not available for distribution as cash dividends. Distributable profit is the Company’s profit as determined under PRC GAAP or IFRSs, whichever is lower, less any recovery of accumulated losses and appropriations to statutory and other statutory funds we are required to make. Any declaration and payment as well as the amount of dividends will be subject to the Articles of Association, applicable PRC laws and approval by the Shareholders. No dividend shall be declared or payable except out of the Company’s profits and reserves lawfully available for distribution.

Corporate Governance Report

The Board is pleased to present this corporate governance report in the Company's annual report for the Reporting Period.

CORPORATE GOVERNANCE FUNCTION

The Board is responsible for performing the corporate governance duties in accordance with Code Provision A.2.1 of Part 2 to the CG Code. The Board is responsible for the formulation of the corporate governance policy for the Company and shall fulfil the following corporate governance duties:

- i. to develop and review the Group's policies and practices on corporate governance and make recommendations to the Board;
- ii. to review and monitor the training and continuous professional development of Directors and senior management;
- iii. to review and monitor the Group's policies and practices in compliance with legal and regulatory requirements;
- iv. to formulate, review and monitor the code of conduct and compliance manual applicable to the Group's employees and Directors; and
- v. to review the Group's compliance with the CG Code and disclosure in the Company's corporate governance report.

COMPLIANCE WITH THE CG CODE

The Company is firmly committed to achieving and maintaining high overall standards of corporate governance through continuous effort in improving its corporate governance practices and processes. Through the establishment of a sound and effective corporate governance framework, the Company strives to achieve completeness and transparency in its information disclosure and enhance stable operation, so as to safeguard the interests of the Shareholders to the greatest extent. The Company has adopted the principles of all code provisions and the CG Code as the basis of its corporate governance practices. The Company has complied with all the code provisions during the Reporting Period, except for the deviation from Code Provision C.2.1 of Part 2 to the CG Code as illustrated in relevant paragraphs of this corporate governance report.

Corporate Governance Report

Deviation from the Code Provision C.2.1 of Part 2 to the CG Code

Mr. Fei is the chairperson the Board and the general manager of the Company and he has been managing the Group's business and supervising the overall operations of the Group since 2006. The Board considers that vesting the roles of the chairman of the Board and the general manager of the Company in Mr. Fei is beneficial to the management and business development of the Group and will provide a strong and consistent leadership to the Group.

The Company believes that the balance of power and authority is ensured by the operation of the senior management and the Board, which comprises experienced and high-calibre individuals. As at the Latest Practicable Date, the Board comprises six executive Directors (including Mr. Fei), two non-executive Directors and four independent non-executive Directors. The Board believes that this structure will not impair the balance of power and authority between the Board and the management of the Company, given that:

- i. there is sufficient check and balance in the Board as the decisions to be made by the Board require approval by at least a majority of the Directors;
- ii. Mr. Fei and the other Directors are aware of and undertake to fulfil their fiduciary duties as Directors, which require, among other things, that they act for the benefit and in the best interest of the Company and make decisions for the Company accordingly;
- iii. the balance of power and authority is ensured by the operations of the Board which comprises experienced and high-calibre individuals who meet regularly to discuss issues affecting the operations of the Group; and
- iv. the overall strategy and other key business, financial, and operational policies of the Company are made collectively after thorough discussion at both Board and senior management levels.

The Board will continue to review and consider splitting the roles of the chairman of the Board and the general manager at a time when it is appropriate and suitable by taking into account the circumstances of the Group as a whole.

SECURITIES TRANSACTIONS OF DIRECTORS AND SUPERVISORS

The Company has adopted the Model Code as its model code of conduct for securities transactions by the Directors and Supervisors. Having made specific enquiry to all Directors and Supervisors, the Company confirms that the Directors and Supervisors have complied with the provisions regarding the securities transactions by Directors and Supervisors as set out in the Model Code for the Reporting Period. No incident of non-compliance in relation to the guidelines of the Model Code by the Directors, Supervisors and relevant employees was noted by the Company during the Reporting Period.

THE BOARD

(1) Composition and responsibilities of the Board

The Board is responsible for planning and overseeing the overall development and management of the Group with the objective of enhancing Shareholders' value. The Board delegates day-to-day operation of the Company to executive Directors and the Company's senior management, including taking charge of managing the Company's business, the implementation of major strategies and initiatives approved by the Board. On the other hand, the Board reserves certain key matters in making strategic decisions for their approval. The day-to-day management, administration and operation of the Company are delegated to the senior management, including the preparation of annual and interim reports for the Board's approval before public reporting, the implementation of various strategies approved by the Board, the implementation of internal control procedures, and ensuring the compliance with relevant statutory requirements and other rules and regulations. The balance of power and authority is ensured by the operation of the senior management and the Board.

As at the Latest Practicable Date, the Board comprised six executive Directors, two non-executive Directors and four independent non-executive Directors. Each of the Directors (except for Ms. Cao Xue, Mr. Tian Kehan and Mr. Jin Yiting) has entered into a service contract with the Company on 7 March 2024 for a term of three years. Ms. Cao Xue, Mr. Tian Kehan and Mr. Jin Yiting have entered into a service contract with the Company on 28 February 2025 with their terms of office commencing from 28 February 2025 until expiry of the term of the current session of the Board.

During the Reporting Period, the Board had met the requirements of Rules 3.10 and 3.10A of the Hong Kong Listing Rules of having at least three independent non-executive Directors (representing at least one-third of the Board) with one of them (namely, Mr. Chen Yi) possessing the appropriate accounting professional qualifications.

The Company has received written annual confirmation of independence from each independent non-executive Director in accordance with Rule 3.13 of the Hong Kong Listing Rules. The Company has assessed their independence and concluded that all the independent non-executive Directors are independent within the meaning of the Hong Kong Listing Rules and there are no direct or indirect major relationships between them and the Company. The Directors are of the view that all independent non-executive Directors meet the independence guidelines set out in Rule 3.13 of the Hong Kong Listing Rules. In addition, each of the independent non-executive Directors during the Reporting Period had demonstrated the attributes of an independent non-executive director by providing independent views and advice and there is no evidence that their tenure has had any impact on their independence. Accordingly, the Directors are of the opinion that each of the current independent non-executive Directors have the required character, integrity, independence and experience to perform the role of an independent non-executive director. The Board is not aware of any circumstances that might influence each of the current independent non-executive Directors in exercising their independent judgement and the Board believes that their external experience will continue to generate significant contribution to the Company and the Shareholders as a whole.

The Company has established mechanisms to ensure independent views and input are available to the Board including but not limited to, all Directors are entitled to engage independent professional advisors as and when it is required, all Directors are encouraged to express their views in an open and candid manner during the Board or committees meetings and that the number of independent non-executive Directors comply with the requirements of the Hong Kong Listing Rules that at least one-third of the Board members are independent non-executive directors. The implementation and effectiveness of such mechanisms are reviewed on an annual basis by the Board.

All Directors, including non-executive Directors, have brought a wide spectrum of valuable business experience, knowledge and professional skills to the Board for its efficient and effective functioning. Each Director has carried out duties in good faith and been in compliance with applicable laws and regulations, and has acted in the interests of the Company and the Shareholders at all times. There are not any financial, business, family or other material/relevant relationships between the members of the Board of the Company.

ARTICLES OF ASSOCIATION

During the Reporting Period, the following amendments were made by the Company to the Articles of Association of the Company:

On 5 February 2025, the Board has proposed an amendment to the Company's article of Association Article 109 that amended and increased the number of directors to be in the Board from 7-9 directors to not more than 12 directors, and such proposal had been duly passed and approved by the Shareholders at the extraordinary general meeting held on 28 February 2025. Please refer to the announcement of the Company dated 5 February 2025 and the circular of the Company dated 13 February 2025 for further details.

The Board noted that the Listing Rules have been amended with effect from 1 January 2022 to adopt a uniform set of 14 core standards for shareholder protections (the "**Core Standards**") for issuers regardless of their place of incorporation. Pursuant to the transitional arrangements permitted under Appendix 3 to the Listing Rules, existing issuers listed on the Stock Exchange as at 31 December 2021 would have until their second annual general meeting following 1 January 2022 to make necessary changes to their constitutional documents to conform to the Core Standards set out in Appendix 3 to the Listing Rules.

On 14 February 2023, the State Council of the PRC (the “**State Council**”) issued the Decision of the State Council to Repeal Certain Administrative Regulations and Documents (《國務院關於廢止部分行政法規和文件的決定》) (the “**Decision**”), which includes the repeal of the Special Regulations on the Overseas Offering and Listing of Shares by Joint Stock Limited Companies (《國務院關於股份有限公司境外募集股份及上市的特別規定》) issued by the State Council on 4 August 1994. On 17 February 2023, the CSRC issued the Trial Administrative Measures of Overseas Securities Offering and Listing by Domestic Companies (《境內企業境外發行證券和上市管理試行辦法》) (the “**Trial Measures**”) and relevant guidelines, which includes the repeal of the Notice on the Implementation of the Mandatory Provisions for Companies Listing Overseas (《關於執行〈到境外上市公司章程必備條款〉的通知》). The Decision and the Trial Measures have been effective since 31 March 2023 (the “**PRC Regulation Changes**”). From the effective date of the Decision and the Trial Measures, PRC issuers shall formulate their articles of association with reference to the Guidelines on Articles of Association of Listed Companies (《上市公司章程指引》) instead of the Mandatory Provisions.

In view of the above PRC Regulation Changes, the Stock Exchange also released a consultation paper “Rule Amendments Following Mainland China Regulation Updates and Other Proposed Rule Amendments Relating to PRC Issuers” (the “**Consultation Paper**”) on 24 February 2023, stipulating the consequential Listing Rules Amendments. In particular, the Stock Exchange proposes to (i) remove the class meeting and related requirements for the issue of new shares by PRC issuers; (ii) repeal Appendix 13D to the Listing Rules, which requires PRC issuers’ articles of association to include the Mandatory Provisions and other ancillary requirements; (iii) amend the Listing Rules in Chapters 9 and 19A to reflect the CSRC record filing regime; (iv) remove the arbitration clause for disputes involving H shareholders as required under the Mandatory Provisions; and (v) modify the other Listing Rules that address issues arising from Domestic Shares and H Shares being treated as different classes. Accordingly, the Company is required to amend its existing Articles of Association to comply with the requirements of the Listing Rules and the applicable laws and regulations of the PRC.

In light of the above, on 14 June 2023, the shareholders resolved and proposed to make certain amendments to the existing articles of association of the Company at the annual general meeting in order to, among others, (i) make the articles of association of the Company in line with the latest legal and regulatory requirements, including the latest legal and regulatory updates in the People’s Republic of China and the amendments made to Appendix 3 to the Listing Rules with effect from 1 January 2022; and (ii) make other corresponding and housekeeping amendments.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board highly values the internal control and risk management of the Company. During the Reporting Period, the Board conducted an annual review to evaluate the effectiveness of the Company's risk management and internal control system. The Audit Committee and the Risk Management Committee shall support the Board to fulfil its supervision and corporate governance responsibilities, which cover such aspects as finance, operations, compliance, risk management and internal control, as well as the internal audit function. The Board has reviewed the risk management and internal control system of the Company and deems it effective and adequate. The Company has developed an internal audit function. The Company establishes an internal audit system and has assigned specialized audit personnel to conduct internal audit and supervision on the incomes and expenses and business activities of the Company. The internal audit system and duties of audit personnel shall be approved by the Board before implementation. The responsible audit personnel shall be accountable to and report to the Board.

The Company has established a set of internal control and risk management procedures to address various potential operational, financial, legal and market risks identified in relation to our operations, including but not limited to procurement management, sales management, inventory management, research and development management, investment management, credit risk, connected party transaction controls, information disclosure controls, human resources, IT management, environmental, social and governance performance and reporting, and other various financial and operational controls and monitoring procedures. These risk management policies set forth procedures regarding the relevant reporting hierarchy of risks identified in our operations. The Board is responsible for overseeing the overall risk management. Our internal control and risk management procedures are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

Further, the Company has put in place a set of policy for the disclosure of inside information which sets out the procedures and internal controls for the handling and dissemination of inside information in a timely manner and in compliance with the SFO. Unless the inside information falls within any of the safe harbours as permitted under the SFO, the Company is required to disseminate such information through the electronic publication system operated by the Stock Exchange to the public in a timely manner. All Directors, officers and relevant employees are required to take reasonable precautions for preserving the confidentiality of inside information and the relevant announcement (if applicable) before publication. If the Company believes that the necessary degree of confidentiality cannot be maintained, the Company will immediately disclose the information to the public as soon as reasonably practicable. The policy and its effectiveness are subject to review on a regular basis. The Company confirmed that the existing risk management and internal control system is appropriate and effective.

The Group treasures the highest standards of integrity and ethical behavior in conducting its business. The Group has adopted an anti-corruption policy which sets out the guidelines that the Group's personnel and business partners shall follow to combat corruption. The anti-corruption policy is reviewed periodically to align with the applicable laws and regulations. To promote ethical behaviour and encourages the reporting of misconduct and unlawful conduct, the Group also adopted a whistle blowing policy to foster a culture of compliance with ethical behavior and good corporate governance. No incident of fraud or misconduct that have material effect on the Group's financial statements or overall operations for the year ended 31 December 2025 has been discovered.

GOING CONCERN

As at 31 December 2025, the Company did not have any material uncertain eventuality that may prejudice the Company's ability to continue as a going concern.

We have audited the consolidated financial statements of Shanghai Conant Optical Co., Ltd. (the "**Company**") and its subsidiaries (collectively referred to as "**the Group**") set out on pages 72 to 180, which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("**IASB**") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("**HKSAs**") as issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "**Code**"), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

How our audit addressed the key audit matter

Revenue recognition for sales of lenses

The Group sells resin spectacle lenses directly to customers and revenue is recognised when the control of the products has been transferred to the customers in accordance with the agreed delivery terms.

Our procedures in relation to revenue recognition for sales of lenses from major customers with high increase included:

- Understanding the key internal controls in respect of occurrence of revenue recognition for sales of lenses, evaluating the design and implementation of these controls and testing the operating effectiveness of relevant controls if the design and implementation is effective;
- Reviewing the sales contracts with these customers, on a sampling basis, and verifying the terms and conditions set out in the sales contracts regarding the criteria of satisfaction of performance obligations in accordance with IFRS 15 *Revenue from Contracts with Customers*;
- Analysing revenue and gross margin from sales of lenses during the current reporting period and identifying unusual fluctuations and inquiring the management to understand and evaluate the appropriateness of the reasons for the unusual fluctuations (if applicable);

Independent Auditor's Report

Key audit matter (Continued)

As disclosed in Note 5 to the consolidated financial statements, for the year ended 31 December 2025, revenue of the Group in total was Renminbi ("RMB") 2,186 million, of which RMB2,182 million was derived from sales of lenses. Among revenue derived from sales of lenses, we identified occurrence of revenue from major customers with high increase as a key audit matter due to the significance to the Group's consolidated financial statements. For the year ended 31 December 2025, the Group has recognised revenue of RMB325 million from abovementioned customers, which accounted for 14.9% of total revenue of the Group.

How our audit addressed the key audit matter

- Testing the sales of lenses, on a sampling basis, by examining the relevant documents supporting the transfer of control of goods and performing audit confirmation procedure;
- Performing background search on these customers, on a sampling basis, to assess the relationship between the Group and these customers and the reasonableness of these transactions; and
- Identifying significant sales returns from the sales ledger after the year end and inspecting the underlying documentation in relation to these sales returns to assess the business rationale of these transactions.

Other Information

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors and Those Charged with Governance for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards as issued by the IASB and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent Auditor's Report

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent Auditor's Report

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is BAO, Jie (practising certificate number: P07856).

Notes:

- (i) The share premium represents the difference between the par value of the shares issued and the consideration received, and the effect on conversion into a joint stock company is considered as well.
- (ii) In accordance with the Company Law of the the People's Republic of China ("**PRC**"), the Company and certain subsidiaries of the Group which are domestic enterprises are required to allocate 10% of their profit after tax, as determined in accordance with the relevant PRC accounting standards, to their respective statutory surplus reserves until the reserves reach 50% of their respective registered capital. Subject to certain restrictions set out in the Company Law of the PRC, part of the statutory surplus reserves may be converted to share capital, provided that the remaining balance after the capitalisation is not less than 25% of the registered capital. The reserve cannot be used for purposes other than those for which it is created and is not distributable as cash dividends.
- (iii) The exchange fluctuation reserve represents exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from the Group's presentation currency.

Notes to the Consolidated Financial Statements

For The Year ended 31 December 2025

1. GENERAL INFORMATION

Shanghai Conant Optical Co., Ltd. (the “**Company**”) was incorporated and registered in the PRC on 20 June 2018, and its shares have been listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) since 16 December 2021. The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information section to the annual report.

The Company and its subsidiaries (the “**Group**”) are principally engaged in manufacture and sale of resin spectacle lenses.

The consolidated financial statements are presented in Renminbi (“**RMB**”), which is also the functional currency of the Company.

The controlling shareholder of the Group is Mr. Fei Zhengxiang.

2. APPLICATION OF NEW AND AMENDMENTS TO IFRS ACCOUNTING STANDARDS

Amendments to an IFRS Accounting Standard that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to an IFRS Accounting Standard as issued by the IASB for the first time, which are mandatorily effective for the Group’s annual period beginning on 1 January 2025 for the preparation of the consolidated financial statements:

Amendments to IAS 21

Lack of Exchangeability

The application of the amendments to an IFRS Accounting Standard in the current year has had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Notes to the Consolidated Financial Statements

For The Year ended 31 December 2025

2. APPLICATION OF NEW AND AMENDMENTS TO IFRS ACCOUNTING STANDARDS (Continued)

New and amendments to IFRS Accounting Standards in issue but not yet effective

The Group has not early applied the following new and amendments to IFRS Accounting Standards that have been issued but are not yet effective:

Amendments to IFRS 9 and IFRS 7	<i>Amendments to the Classification and Measurement of Financial Instruments²</i>
Amendments to IFRS 9 and IFRS 7	<i>Contracts Referencing Nature-dependent Electricity²</i>
Amendments to IFRS 10 and IAS 28	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture¹</i>
Amendments to IFRS	<i>Annual Improvements to IFRS Accounting Standards - Volume 11²</i>
Accounting Standards IFRS 18	<i>Presentation and Disclosure in Financial Statements³</i>
Amendments to IAS 21	<i>Translation to a Hyperinflationary Presentation Currency³</i>

¹ Effective for annual periods beginning on or after a date to be determined.

² Effective for annual periods beginning on or after 1 January 2026.

³ Effective for annual periods beginning on or after 1 January 2027.

Except for the new IFRS Accounting Standard mentioned below, the directors of the Company anticipate that the application of all amendments to IFRS Accounting Standards will have no material impact on the consolidated financial statements in the foreseeable future.

Notes to the Consolidated Financial Statements

For The Year ended 31 December 2025

2. APPLICATION OF NEW AND AMENDMENTS TO IFRS ACCOUNTING STANDARDS (Continued)

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 *Presentation and Disclosure in Financial Statements*, which sets out requirements on presentation and disclosures in financial statements, will replace IAS 1 *Presentation of Financial Statements*. This new IFRS Accounting Standard, while carrying forward many of the requirements in IAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some IAS 1 paragraphs have been moved to IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* (the title of which will be changed to *Basis of Preparation of Financial Statements* upon effective of IFRS 18) and IFRS 7. Minor amendments to IAS 7 *Statement of Cash Flows* and IAS 33 *Earnings per Share* are also made.

IFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. IFRS 18 requires retrospective application with specific transition provisions. The application of the new standard is not expected to have significant impact on the financial performance and positions of the Group in terms of recognition and measurement. However, it is expected to affect the structure and presentation of the consolidated statement of profit or loss.

Notes to the Consolidated Financial Statements

For The Year ended 31 December 2025

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION

3.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the IASB. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange (“**Listing Rules**”) and by the Hong Kong Companies Ordinance.

3.2 Material accounting policy information

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Notes to the Consolidated Financial Statements

For The Year ended 31 December 2025

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

3.2 Material accounting policy information (Continued)

Basis of consolidation (Continued)

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company. Total comprehensive income of the subsidiaries is attributed to the owners of the Company.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Investments in an associate and a joint venture

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

Investments in an associate and a joint venture (Continued)

The results and assets and liabilities of an associate or a joint venture are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of the associate and joint venture used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. Changes in net assets of the associate/joint venture other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of an associate or joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interest that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are provided for, and a liability is recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

3.2 Material accounting policy information (Continued)

Investments in an associate and a joint venture (Continued)

The Group assesses whether there is an objective evidence that the interest in an associate or a joint venture may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 *Impairment of Assets* as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When a group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

Leases

The Group assesses whether a contract is or contains a lease based on the definition under IFRS 16 at inception of the contract. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

Short-term leases

The Group applies the short-term lease recognition exemption to leases of buildings, motor vehicles, furniture and equipment, and machinery that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. Lease payments on short-term leases are recognised as expense on a straight-line basis unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Right-of-use assets

The cost of right-of-use assets include:

- the amounts of the initial measurement of the lease liabilities;
- any lease payments made at or before the commencement date; and
- any initial direct costs incurred by the Group.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. The incremental borrowing rate depends on the term, currency and start date of the lease.

Lease liabilities (Continued)

The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

The Group as a lessor

Classification and measurement of leases

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. All of the Group's leases during the year and prior year are classified as operating leases.

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset, and such costs are recognised as an expense on a straight-line basis over the lease term except for investment properties measured under fair value model.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. RMB) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during the period, in which case the exchange rates prevailing at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange fluctuation reserve.

Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "other income".

Employee benefits

Retirement benefit costs

Payments to defined contribution retirement benefit plans and state-managed retirement benefit schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

Employee benefits (Continued)

Retirement benefit costs (Continued)

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. In determining the present value of the Group's defined benefit obligations and the related current service cost and, where applicable, past service cost, the Group attributes benefit to periods of service under the plan's benefit formula. However, if an employee's service in later years will lead to a materially higher level of benefit than earlier years, the Group attributes the benefit on a straight-line basis from:

- (a) the date when service by the employee first leads to benefits under the plan (whether or not the benefits are conditional on further service) until
- (b) the date when further service by the employee will lead to no material amount of further benefits under the plan, other than from further salary increases.

Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements); and
- net interest on the net defined benefit liability or asset.

Employee benefits (Continued)

Retirement benefit costs (Continued)

The Group presents the defined benefit costs in profit or loss in the line item “cost of sales”, “administrative expenses” and “distribution and selling expenses”.

The retirement benefit obligation recognised in the consolidated statement of financial position represents the actual deficit or surplus in the Group’s defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another IFRS Accounting Standard requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Share-based payments

Equity-settled share-based payment transactions

Share awards granted to employees

Equity-settled share-based payments to employees including directors of the Company are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share-based payment reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share-based payment reserve. For share that vest immediately at the date of grant, the fair value of the shares granted is expensed immediately to profit or loss.

When share awards granted are vested, the amount previously recognised in share-based payment reserve will be transferred to share premium.

Taxation

Income tax expense represents the sum of current and deferred income tax expense.

Taxation (Continued)

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary differences.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and an associate, and interests in a joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Taxation (Continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 requirements to the lease liabilities and the related assets separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised and a deferred tax liability for all taxable temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Taxation (Continued)

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

In assessing any uncertainty over income tax treatments, the Group considers whether it is probable that the relevant tax authority will accept the uncertain tax treatment used, or proposed to be use by individual group entities in their income tax filings. If it is probable, the current and deferred taxes are determined consistently with the tax treatment in the income tax filings. If it is not probable that the relevant taxation authority will accept an uncertain tax treatment, the effect of each uncertainty is reflected by using either the most likely amount or the expected value.

Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes (other than construction in progress). Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Freehold lands are not depreciated and are measured at cost less subsequent accumulated impairment losses.

Buildings in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, including costs of testing whether the related assets is functioning properly and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Sale proceeds of items that are produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management (such as samples produced when testing whether the asset is functioning properly), and the related costs of producing those items are recognised in the profit or loss. The cost of those items are measured in accordance with the measurement requirements of IAS 2. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of assets other than freehold land and properties under construction less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are stated at cost less subsequent accumulated depreciation and any accumulated impairment losses. Depreciation is recognised so as to write off the cost of investment properties over their estimated useful lives and after taking into account of their estimated residual value, using the straight-line method.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Impairment on property, plant and equipment, right-of-use assets and intangible assets other than goodwill

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets, intangible assets with finite useful lives to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of property, plant and equipment, right-of-use assets and intangible assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Impairment losses on property, plant and equipment, right-of-use assets, and intangible assets other than goodwill (Continued)

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro-rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Cash and cash equivalents

Cash and cash equivalents presented on the consolidated statement of financial position include:

- (a) cash, which comprises of cash on hand and demand deposits, excluding bank balances that are subject to regulatory restrictions that result in such balances no longer meeting the definition of cash; and
- (b) cash equivalents, which comprises of short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale, including costs to be incurred in marketing, selling and distribution.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with IFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liabilities and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established generally by regulation or convention in the market place concerned.

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

(ii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss includes any interest earned on the financial asset and is included in the "other gains and losses" line item.

Impairment of financial assets and other items subject to impairment assessment under IFRS 9

The Group performs impairment assessment under ECL model on financial assets (including trade and other receivables, amount due from related parties, cash and cash equivalents, pledged bank deposits and time deposits) which are subject to impairment assessment under IFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“**12m ECL**”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessments are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of past events and current conditions at the reporting date as well as the forecast of future economic conditions.

The Group always recognises lifetime ECL for trade receivables.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;

(i) Significant increase in credit risk (Continued)

- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimation ECL on trade receivables. The measurement of ECL on those trade receivables with high credit risk are assessed on an individual basis, and the remaining is assessed collectively using a provision matrix taking into consideration historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and forward looking information, including time value of money where appropriate, that is available without undue cost or effort.

(v) Measurement and recognition of ECL (Continued)

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Lifetime ECL for certain trade receivables are considered on a collective basis taking into consideration past due information and relevant credit information such as forward looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

Financial assets (Continued)

Impairment of financial assets and other items subject to impairment assessment under IFRS 9 (Continued)

(v) Measurement and recognition of ECL (Continued)

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables and other receivables where the corresponding adjustment is recognised in "impairment gains (losses) under ECL model, net of reversal" line item.

Foreign exchange gains and losses

The carrying amount of financial assets that are denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. Specifically:

- For financial assets measured at amortised cost that are not part of a designated hedging relationship, exchange differences are recognised in profit or loss in the "other gains and losses" and "other expenses" line item as part of the net foreign exchange gains/(losses);
- For financial assets measured at FVTPL that are not part of a designated hedging relationship, exchange differences are recognised in profit or loss in the "other gains and losses" and "other expenses" line item as part of the fair value gains/(losses) of financial assets.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralized borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities and equity (Continued)

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL. All of the Group's financial liabilities during the year and prior year are measured at amortised cost.

Financial liabilities at amortised cost

Financial liabilities including amount due to a related party, interest-bearing bank borrowings, trade payables, other payables and accruals are subsequently measured at amortised cost, using the effective interest method.

Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments. These foreign exchange gains and losses are recognised in the "other gains and losses" line item in profit or loss as part of net foreign exchange gains/(losses) for financial liabilities that are not part of a designated hedging relationship.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that has a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Provision of ECL for trade receivables

The measurement of ECL on those trade receivables with high credit risk are assessed on an individual basis, and the remaining is assessed collectively using provision matrix. The provision matrix is based on the Group's historical default rates taking into consideration of forward-looking information that is reasonable and supportable available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade receivables are disclosed in Notes 22 and 39.

Notes to the Consolidated Financial Statements

4. KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Allowances for inventories

The Group reviews the aging of the inventories at the end of each reporting period, and make allowance for obsolete and slow-moving inventory items identified that are no longer suitable for use in production or saleable in the market. The Group estimates the net realisable value for such items based primarily on the latest invoice prices and current market conditions. The Group carries out an inventory review on a product-by-product basis at the end of the reporting period and makes allowance for obsolete and slow-moving items.

As at 31 December 2025, the carrying amount of inventories was RMB602,404,000 (net of allowance for inventories of RMB10,759,000) (2024: carrying amount of inventories was RMB562,857,000 (net of allowance for inventories of RMB22,499,000)).

Impairment of property, plant and equipment, investment properties, right-of-use assets and other intangible assets

The Group assesses whether there are any indicators of impairment for plant and equipment, investment properties, right-of-use assets and other intangible assets at the end of each reporting period. All plant and equipment, investment properties, right-of-use assets and other intangible assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Deferred tax assets

As at 31 December 2025, a deferred tax asset of RMB3,700,000 (2024: RMB1,972,000) in relation to unused tax losses for certain operating subsidiaries has been recognised in the consolidated statement of financial position. No deferred tax asset has been recognised on the tax losses of RMB12,087,000 (2024: RMB30,128,000) for some subsidiaries due to the unpredictability of future profit streams. The realisability of the deferred tax asset mainly depends on whether sufficient taxable profits will be available in the future or taxable temporary differences are expected to reverse in the same period as the expected reversal of the deductible temporary differences, which is a key source of estimation uncertainty.

In cases where the actual future taxable profits generated are less or more than expected, or change in facts and circumstances which result in revision of future taxable profits estimation, a material reversal or further recognition of deferred tax assets may arise, which would be recognised in profit or loss for the period in which such a reversal or further recognition takes place. Significant management estimation is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

5. REVENUE

5. REVENUE (Continued)

(ii) Performance obligations for contracts with customers and revenue recognition policies

Sales of goods

The Group sells resin spectacle lenses directly to customers in accordance with the orders form and framework contracts entered with the customers. For domestic sales, revenue is recognised when the control of the products has been transferred to the customers, being at the point the goods are delivered to the customer or third-party logistics company. For overseas sales, revenue is recognised according to relevant incoterms. The normal credit term is mainly 90 days effective from the delivery, except for new customers, where payment in advance is normally required. The transaction price received by the Group is recognised as a contract liability until the related performance obligation is satisfied.

Some contracts provide customers with volume rebates which give rise to variable consideration subject to constraint.

(iii) Transaction price allocated to the remaining performance obligation for contracts with customers

All performance obligations for sales of resin spectacle lenses are within period less than one year. As permitted under IFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

6. SEGMENT INFORMATION

IFRS 8 *Operating Segments* requires operating segments to be identified on the basis of internal reporting about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to segments and to assess their performance. The information reported to the directors of the Company, who are the chief operating decision makers, for the purpose of the resource allocation and assessment of performance does not contain discrete operating segment financial information and the directors of the Company reviewed the financial results of the Group as a whole. Therefore, no further information about the operating segment is presented.

9. INCOME TAX EXPENSE (Continued)

For certain Group's subsidiaries operating in the PRC are eligible for certain concessions, which were accredited as "High and New Technology Enterprise", and were therefore entitled to a preferential EIT rate of 15%.

The directors of the Company are of the view that it is very probable that the subsidiaries which are accredited as "High and New Technology Enterprise" are able to extend their accreditation upon expiry.

Pursuant to the relevant tax laws, the subsidiary incorporated in the USA was subject to federal corporation income tax at the rate of 21% (2024: 21%) on the federal taxable income as well as Georgia's state corporate income tax at the rate of 5.75% (2024: 5.75%) on its Georgia taxable income during the year.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

Pursuant to the tax treaty agreed between Japan and Hong Kong, a 5% withholding tax is levied on dividends declared to Hong Kong investors from enterprises established in Japan. The Group is therefore liable for withholding taxes on dividends to be distributed by the subsidiary established in Japan.

The freehold land is located in Japan and Thailand.

At 31 December 2025, certain of the Group's property, plant and equipment with a net carrying value of RMB124,391,000 (2024: RMB133,514,000) were pledged to secure general banking facilities granted to the Group. Details are set out in Note 29.

Impairment assessment

For the year ended 31 December 2025, the management of the Group has reviewed the carrying amounts of its property, plant and equipment and concluded there was no indication for impairment on certain property, plant and equipment and thus no impairment assessment has been conducted.

For the year ended 31 December 2024, due to the upgrading of production lines, part of the equipment would be replaced and cease to be used and the management of the Group concluded there was indication for impairment and conducted impairment assessment on certain property, plant and equipment with carrying amounts of RMB19,033,000. The recoverable amount of owned properties are estimated individually.

The recoverable amounts of the owned properties have been determined based on their fair value less costs of disposal. The Group estimate the fair value less costs of disposal of the assets based on the residual value of related assets. The fair value measurement is categorised into Level 3 fair value hierarchy. The relevant assets were impaired to their recoverable amount of RMB80,000, which was their carrying values at 31 December 2024 and the impairment of RMB18,953,000 has been recognised in profit or loss within the relevant functions to which these assets relate during the year ended 31 December 2024.

15. INVESTMENT PROPERTIES

The Group leases out certain buildings in Shanghai under operating leases with rentals payable quarterly. The leases typically run for an initial period of 1.5 years (2024: 6.5 years).

The Group is not exposed to foreign currency risk as a result of the lease arrangements, as all leases are denominated in the respective functional currencies of group entities. The lease contracts do not contain residual value guarantee and/or lessee's option to purchase the property at the end of lease term.

15. INVESTMENT PROPERTIES (Continued)

The fair value of the Group's investment properties as at 31 December 2025 was RMB125,000,000 (2024: RMB142,000,000). The fair value has been valued by the directors of the Company with reference to a valuation carried out by an independent qualified professional valuer not connected with the Group.

The fair value was determined based on the income approach, by taking into account the rental income of the properties derived from the existing leases and/or achievable in the existing market with due allowance for the reversionary income potential of the leases, which have been then capitalised to determine the fair value at an appropriate capitalisation rate. Where appropriate, reference to the comparable sales transactions as available in the relevant market has also been considered.

In estimating the fair value of the properties, the highest and best use of the properties is their current use.

Details of the Group's investment properties and information about the fair value hierarchy as at the end of the reporting period are as follows:

	2025		2024	
	Carrying amount RMB'000	Fair value at Level 3 hierarchy RMB'000	Carrying amount RMB'000	Fair value at Level 3 hierarchy RMB'000

At 31 December 2025	57,447	2,046	5,350	375	65,218

At the end of the reporting period, the Group has unused tax losses of RMB34,526,000 (2024: RMB38,016,000) available for offset against future profits. A deferred tax asset of RMB3,700,000 (2024: RMB1,972,000) has been recognised in respect of such losses. No deferred tax asset has been recognised in respect of the remaining RMB12,087,000 (2024: RMB30,128,000) due to the unpredictability of future profit streams.

	2025 RMB'000	2024 RMB'000
Tax loss expire in 2027	53	132
Tax loss expire in 2028	1,430	1,535

	12,087	30,128

At the end of the reporting period, the aggregate amount of temporary differences associated with undistributed earnings of subsidiaries established in the USA for which deferred tax liabilities have not been recognised was approximately RMB46,243,000 (2024: RMB43,146,000). No deferred tax liability has been recognised in respect of these differences because in the opinion of the directors of the Company, the Group's fund will be retained in the USA for the expansion of the Group's operation, so it is not probable that these subsidiaries will distribute such earnings in the foreseeable future.

Notes to the Consolidated Financial Statements

For The Year ended 31 December 2025

20. DEFERRED TAXATION (Continued)

At the end of the reporting period, the Group has not recognised deferred tax asset in relation to deductible temporary differences of RMB2,252,000 (2024: RMB2,262,000) as it is not probable that taxable profit will be available against which the deductible temporary differences can be utilised.

Less: Allowance for credit losses	(35,888)	(58,545)
	403,008	355,862

The Group's trading terms with its customers are mainly on credit, except for new customers, where payment in advance is normally required. The credit period is generally three months. Most customers have a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables and reconciled the balance to customers monthly. Overdue balances are reviewed regularly by the sales and financial department. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral over its trade receivable balances. In order to protect the default risk of customers, the Group has purchased certain insurance against credit risk. Trade receivables are non-interest-bearing.

The following is an aged analysis of trade receivables net of allowance for credit losses presented based on the invoice date at the end of the reporting period, which approximated the respective revenue recognition dates:

	2025 RMB'000	2024 RMB'000

31. SHARE-BASED PAYMENT TRANSACTIONS

2023 Share Award Scheme

On 27 November 2023, the 2023 Restricted Share Unit Scheme (“**2023 Share Award Scheme**”) of the Company has been proposed by the board of directors of the Company for the purpose of (i) recognise the contributions made by certain employees of the Group, directors and supervisors of the Company (the “**Eligible Persons**”) and provide incentives and retain Eligible Persons, whose contributions are beneficial to the continuous operation and development of the Group; (ii) attract talents for further development of the Group and enhance competitiveness of such talents; and (iii) align the interests of Eligible Persons to the Group’s values, enabling employees to work towards the Group’s long-term development goals. On 18 December 2023, the implementation of the 2023 Share Award Scheme has been approved at the 2023 first extraordinary general meeting.

On 3 April 2025, 2,374,860 shares were granted to 154 eligible directors, supervisors and employees, representing approximately 0.49% of the total share capital of the Company at the date of grant. The Company received total consideration of RMB 10,241,000 at a subscription price of HK\$4.58 per share.

These granted shares will vest upon satisfaction of 2025 performance indicators, service conditions and individual performance conditions applicable to the participants. Details of these conditions are set out in the Company’s circular dated 1 December 2023.

On 3 July 2025, 255,980 shares were granted to 2 eligible employees, representing approximately 0.05% of the total share capital of the Company at the date of grant. The Company received total consideration of RMB 1,068,000 under the 2023 Share Award Scheme at a subscription price of HK\$4.58 per share. The directors considered that all vesting conditions had been satisfied as at the grant date. Accordingly, the share-based payment reserve of RMB 7,482,000 was transferred to share premium, and the related consideration of RMB 1,068,000 received from participants in respect of the granted shares was transferred to equity.

All shares granted were sourced from the treasury shares repurchased by the Company since 2024.

The Group mainly exposes to foreign currency of US\$, JPY and EUR. The Group currently does not have a foreign exchange hedging policy. However, the management of the Group monitors foreign exchange exposure and will consider hedging significant foreign exchange exposure should the need arise.

Sensitivity analysis

This following table details the Group's sensitivity to a 5% (2024: 5%) increase and decrease in RMB against the relevant foreign currencies. 5% (2024: 5%) represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes outstanding foreign currency denominated monetary items and adjusts their translation at the year end for a 5% (2024: 5%) change in foreign currency rates. A positive number below indicates an increase in profit before tax where RMB strengthens 5% (2024: 5%) against the relevant currency while a negative number indicates a decrease in profit before tax.

	2025 RMB'000	2024 RMB'000
US\$	41,659	19,604
JPY	1,236	(228)
EUR	137	(546)

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year.

(ii) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate bank borrowings and lease liabilities (see Notes 29 and 32).

The Group manages its interest rate exposures by assessing the potential impact arising from any interest rate movements based on interest rate level and outlook.

(b) Financial risk management objectives and policies (Continued)

Credit risk and impairment assessment

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. At the end of each reporting period, the Group's maximum exposure to credit risk which cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of the financial position.

Trade receivables arising from contracts with customers

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers will comply to the Group's policy. In addition, trade receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

The measurement of ECL on those trade receivables with high credit risk are assessed on an individual basis, and the remaining trade receivables are assessed collectively using provision matrix. Details of the quantitative disclosures are set out below in this note.

The Group has concentration of credit risk on trade receivables. At 31 December 2025, the Group's ten largest customers accounted for 39% (2024: 36%) of the total trade receivables.

The Group's concentration of credit risk by geographical locations is mainly in the PRC, which accounted for 29% (2024: 26%) of the total trade receivables as at 31 December 2025.

Cash and cash equivalents

Credit risk on cash and cash equivalents is limited because the counterparties are reputable banks with high credit ratings assigned by credit agencies. The Group assessed 12m ECL for cash and cash equivalents by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies. Based on the average loss rates, the 12m ECL on cash and cash equivalents is considered to be insignificant and therefore no loss allowance was recognised.

Other receivables

The Group makes individual assessment for significant outstanding items and portfolio assessment for other items with a large number of insignificant balances on the recoverability of other receivables on 12m ECL basis.

The tables below detail the credit risk exposures of the Group's financial assets, which are subject to ECL assessment:

	External Notes	credit rating	12-month or lifetime ECL	2025 Gross carrying amount RMB'000	2024 Gross carrying amount RMB'000
Financial assets at amortised costs					
Trade receivables (note)	22	N/A (note)	Collectively assessed: Lifetime ECL- not-credit impaired Lifetime ECL-credit impaired	417,553 21,343	372,536 21,669
			Individual assessed: Lifetime ECL-credit impaired	–	20,202
Amount due from related parties		N/A	12m ECL	1,063	12
Cash and cash equivalents	25	Low risk	12m ECL	629,926	499,070

Financial assets included in other receivables	23	N/A	12m ECL	5,972	2,923

Note: For trade receivables, the Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL. Except for debtors which are assessed individually, the Group determines ECL on these items by using a provision matrix.

(b) Financial risk management objectives and policies (Continued)

Credit risk and impairment assessment (Continued)

The following table provides information about the exposure to credit risk for trade receivables which are assessed based on collective basis within lifetime ECL as at 31 December 2025:

Gross carrying amount

	2025		2024	
	Average loss rate %	Trade receivables RMB'000	Average loss rate %	Trade receivables RMB'000
Not past due	1.10	193,180	1.16	146,875
Past due:				
0 – 90 days	2.72	163,693	3.50	164,528
91 – 180 days	13.57	48,859	15.77	49,595
181 – 365 days	19.03	11,821	21.40	11,538
1 – 2 years	71.11	3,127	72.92	3,987
2 – 3 years	100.00	1,063	100.00	328
Over 3 years	100.00	17,153	100.00	17,354
		438,896		394,205

During the year ended 31 December 2025, trade receivables amounting to nil (2024: RMB20,202,000) with high credit risk are assessed for ECL individually.

With reference to the historical records, past experience and also available forward-looking information to those customers whose trade receivables have been pass due over 90 days while within 1 years, the management of the Group does not consider these receivables as credit-impaired as these customers have a good business relationship and satisfactory settlement history.

The following table shows the movement in lifetime ECL that has been recognised for trade receivables under the simplified approach.

The Group writes off a trade receivable when there is information indicating that debtors are in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtors have been placed under liquidation.

During the years ended 31 December 2025 and 2024, no impairment loss was recorded for other receivables.

Liquidity risk

The Group closely monitors its cash position resulting from its operations and maintains a level of cash and cash equivalents deemed adequate by the management to enable the Group to meet in full its financial obligations as they fall due for the foreseeable future.

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities based on the agreed repayment terms. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank loans with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period.

(c) Fair value

(i) Fair value of the Group's financial assets that are measured at fair value on a recurring basis

Some of the Group's financial assets are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets are determined (in particular, the valuation technique(s) and input(s) used), as well as the level of the fair value hierarchy into which the fair value measurements are categorised (levels 1 to 3) based on the degree to which the inputs to the fair value measurements are observable.
